<b>ADVICE-40-004-05</b>	<b>Identification of FSC claims on sales and delivery documents</b>
Normative reference	FSC-STD-40-004 V2-0, Clause 6.1
Effective date	14 February 2011
Terms & definitions	N/A
Background	The FSC Chain of Custody standard requires certificate holders to identify FSC certified products on sales and delivery documentation in order to pass on the FSC claim of certified products to subsequent customers. However, several organizations have limitations with providing complete FSC claims that are required due to space constraints in these documents.
Advice	<p>When the certificate holder has demonstrated it is not able to include the required FSC claim as specified in the FSC Chain of Custody standard in sales and delivery documents due to space constraints, through an exception, the certification body can approve the required information to be provided through supplementary evidence (e.g. supplementary letters, a link to the own company's webpage with verifiable product information). This practice is only acceptable when the certification body is satisfied that the supplementary method proposed by the company complies with the following criteria:</p> <ul style="list-style-type: none"><li>a) There is no risk that the customer will misinterpret which products are or are not FSC certified in the document;</li><li>b) The sales and delivery documents contain visible and understandable information so that the customer is aware that the full FSC claim is provided through supplementary evidence;</li><li>c) In cases where the sales and delivery documents contain multiple products with different FSC Claims, a clear identification for each product shall be included to cross-reference it with the associated FSC claim provided in the supplementary evidence.</li></ul>
