DE / 020 / 293

PRODUCT DESCRIPTION

Water-soluble cleaning concentrate for everyday cleaning and care – especially developed for oiled and waxed wood floors. It contains soaps based on natural oils. The wood does not dry out from cleaning. When used regularly, the highly effective Wash and Care produces a low-maintenance, non-slip surface. The water-soluble ingredients prevent streaks and do not form a layer. Especially mild on skin, free of dyes and aromas, biodegradable, free of solvents and emissions, and thus it supports a healthy living environment.

RECOMMENDED USE

Osmo Wash and Care is especially suitable for the cleaning and care of oiled and waxed wooden flooring. It is also recommended for furniture, doors, wall and ceiling panelling.

INGREDIENTS

Based on natural plant oils; 5-15% plant soaps (an-ionic tensides); < 5% non-ionic tensides; care components, suspending agent.
Detailed declaration of ingredients available upon request.

TECHNICAL DATA

Specific gravity: 1.01-1.03 g/cm³
Odour: faint/mild, after drying odourless
pH value at 20°C: 10.9

STORAGE

Up to 5 years and longer if container is kept dry, closed tightly and stored at temperatures between 5 and 35°C. Do not expose to frost during transport!

SURFACE PREPARATION

To remove loose debris, we recommend using Osmo Dust-Mop, a conventional vacuum cleaner or broom.

METHODS OF APPLICATION

Manual: Wash and Care is ideally used with Osmo Micro-Mop Plush. Add Osmo Wash and Care to water. Clean the floor with a damp (not wet) mop and wipe dry immediately. When applied regularly, the surface becomes resistant to dirt and signs of wear.

Machine: Spread the diluted Wash and Care solution with a pump sprayer. Loosen dirt with a single disc machine, e.g. Osmo FloorXcenter, and a white pad. Immediately, mop away or remove with a round Osmo Microfibre Pad for machines.

COVERAGE

1 capful of Wash and Care per 2 litres water.
For higher levels of soiling or for mechanical applications, dosage can be increased up to a mixing ratio of 1:1.
Proper dosage saves costs and minimizes environmental impacts. Only a small quantity of the product is needed compared to normal (i.e. diluted) products. Do not mix different cleaners.

NOTE

To specifically remove especially tough stains and to occasionally, intensively refresh waxed or oiled floors, we recommend using our tried and trusted Osmo Liquid Wax Cleaner, which is based on natural plant oils and waxes (undiluted application with Osmo Active Fibre Cloth).
For a complete renovation, we recommend an Osmo Polyx®-Oil.

For use with Osmo FloorXcenter:

White pad: loosen common household contamination.

Brush ring: remove tough deposits even in pores.

Red pad: remove especially tough stains.

(Re-oiling is recommended.)

After the dirt is loosened, remove it with the Micro-fibre Pad. Repeat process until the complete area is clean. Detailed information can be found in the product information sheet for FloorXcenter.

Strong mechanical applications (e.g. single disc machine with a red pad) also remove the soluble wax and oil layer.

After drying, one coat of an Osmo Polyx[®]-Oil must be applied thinly to flooring.

CAUTION

Keep out of reach of children.

If medical advice is needed, have product container or label at hand.

DISPOSAL

Dispose of leftover product and completely emptied packaging according to local official guidelines (waste code number 08 01 11). Only completely emptied cans can be recycled.
